SUMMARY

Data-focused Computer Engineering student with strong proficiency in Python and hands-on experience in data analysis, visualization, and database-driven applications. Built real-world projects using pandas, MongoDB, Flask, and AI APIs to analyze data and generate insights. Seeking Data Analyst / Data Scientist internship opportunities to apply analytical and problem-solving skills on real datasets.

TECHNICAL SKILLS

Programming: Python (primary), Java, C

Data Analysis: pandas, numpy, data cleaning, visualization

Databases: MongoDB, basic SQL

Machine Learning / AI: ML fundamentals, Gemini API

Tools: Flask, Git, GitHub, matplotlib

PROJECTS

Expense Tracker – Python, MongoDB

- Designed and developed a CLI-based expense tracking system using Python and MongoDB
- Performed data cleaning and analysis using pandas to generate category-wise and time-based summaries
- Created visual reports (bar and pie charts) to identify spending patterns and trends

AI-Powered Resume Analyzer – Flask, Gemini AI

- Developed an AI-powered web application using Flask and Google Gemini API
- Automated resume analysis to extract strengths, skill gaps, and improvement suggestions
- Delivered structured insights to help users optimize resumes for internships and jobs

Recipe Recommendation Website

- Developed a recipe recommendation web application based on user preferences
- Implemented recommendation logic using structured data to suggest relevant recipes
- Focused on improving user experience through personalized suggestions

EXPERIENCE

Logistics Team Member, ICC Committee – Sakec College, Mumbai

- Coordinated logistics for college-level events under strict deadlines
- Collaborated with cross-functional teams to ensure smooth execution

EDUCATION

2023-2027 : Bachelor of Technology (B.Tech) in Computer Engineering

Shah and Anchor Kutchhi Engineering College, Chembur

2021-2023 : HSC (Science) 79.83%

Guru Nanak Junior College ,Bhandup
